About Me

Creative and detail-oriented Product Designer with foundational experience in digital and physical product development. Skilled in 3D modeling (**Rhino3D**, **Creo**), digital prototyping (**Figma**), and visual communication using **Adobe Creative Suite**. Passionate about transforming concepts into functional, aesthetically appealing products. Eager to contribute strong technical skills and fresh design perspectives to collaborative, cross-functional teams.

Work Experiences

KAF Resources | 3D Rendering Artist | Jun 2024 - Aug 2024

- Redesigned the playground area, including the strategic placement of equipment to enhance safety and functionality.
- Updated the company website to showcase completed projects, ensuring accurate and timely information is available to stakeholders.

ANR-Technologies | Product Designer |Mar 2021 - May 2021

- Redesigned products to better meet user needs, including label design enhancements.
- Inspected product goods and repackaged them to ensure quality and compliance.

H&M | Sale Assistant | Nov 2017 - Feb 2018

- Managed the restocking, arrangement, and organization of merchandise in front lanes to enhance product visibility and drive sales.
- Assisted customers in completing purchases, locating items, and enrolling in reward programs to boost customer loyalty, satisfaction, and sales figures.

Takashimaya | Driver Assistant | Oct 2013 - Dec 2013

- Coordinated the arrangement of items at delivery locations in accordance with customer requests and instructions.
- Promptly notified the purchasing team of any missing or damaged items during the unloading and receiving process.

Nippon Express | Packer | Oct 2012 - Dec 2012

- Reviewed packing slips and related documentation to ensure accurate boxing of client-requested items.
- Conducted inspections of products for defects and damages, and verified the accuracy of incoming and outgoing shipments to prevent errors.
